

Configuration Notes for Credible Mobile Release 2.93

Database Schema 2.33

Date Conversions Moved to Server

| | |
|----------------------------|--|
| <i>Task #</i> | 50162/49548/49047/49013 |
| <i>What was the issue?</i> | Dates were converted in mobile directly then stored on server, limiting available functionality. |
| <i>The patch</i> | All date handling has been moved to the server. |

Visits Not Added Via Search Client in Offline

| | |
|----------------------------|--|
| <i>Task #</i> | 51328 |
| <i>What was the issue?</i> | Unscheduled Visits after the first were not downloading Client information, preventing additional Visits from being added. |
| <i>The patch</i> | Code was corrected to ensure Client information was downloaded. |

Strengthened Data Encryption

| | |
|----------------------------|--|
| <i>Task #</i> | 35149 |
| <i>What was the issue?</i> | Meaningful Use Stage 2 requires additional standards for encryption methods and processes. |
| <i>The patch</i> | Encryption has been updated to strengthen compliance with requirements. |

Daylight Saving Time errors in iOS 7

| | |
|----------------------------|---|
| <i>Task #</i> | 49486 |
| <i>What was the issue?</i> | Daylight Saving Time was not being handled properly in iOS 7. |
| <i>The patch</i> | New Time Zone offset code was applied. |

Auto-Queue Sends Even if Disabled

| | |
|----------------------------|--|
| <i>Task #</i> | 51050 |
| <i>What was the issue?</i> | Even if Automatic Queue Processing was disabled, queued scheduling of unscheduled Visits were occurring. |
| <i>The patch</i> | A code fix was applied to properly disable Automatic Queue Processing. |

Unable to Schedule Forms Group

| | |
|----------------------------|--|
| <i>Task #</i> | 51978 |
| <i>What was the issue?</i> | In Connected or Disconnected modes, attempting to Schedule or start an unplanned Form Group service will fail. |
| <i>The patch</i> | Code fix applied to allow the use of Form Group services in Mobile. |

No Service Types Appear When Disconnected

| | |
|----------------------------|--|
| <i>Task #</i> | 47592 |
| <i>What was the issue?</i> | When adding a Service in Disconnected mode, no Service Types appear in the list. |
| <i>The patch</i> | Code was modified to correct this. |

Duplicate Service Efforts

| | |
|----------------------------|--|
| <i>Task #</i> | Not applicable |
| <i>What was the issue?</i> | Services are occasionally being duplicated on entry. |
| <i>The patch</i> | Additional measures taken to resolve the ongoing duplicate service issue. These efforts include disabling the Sync button on the Visit Queue screen while data is being actively synced. |
