Subject: Credible Update: ORP Initiative Changes

CREDIBLE

Behavioral Health Software

DEAR CREDIBLE,

Credible has recently confirmed with VBH of Pennsylvania that ***the Ordering provider information is to be populated in L2420E***. While no new effective date has been established by VBH, Credible is in the process of enhancing the current configuration for L2420E which will allow Partners to populate the ordering information in the Client's Episode field.

Please note, that the ORP changes made by VBH of Pennsylvania/Beacon are separate to the EDI transition that Beacon is currently rolling out in a phased approach. With Beacon's EDI transition, there is a requirement to update the Billing Office/Claim Config setting with a new Receiver ID. Beacon representatives have been reaching out directly to Partners to inform them of the transition and when to make updates.

Should Partners require assistance in either ORP configuration or the Beacon EDI transition, please enter a task ticket and a Billing Specialist will be happy to assist you.

We thank you for your continued Partnership,

Jaclyn O'Donnell

Executive Vice President
