Subject: Credible Update: New DSM-5 Diagnoses

CREDIBLE

Behavioral Health Software

DEAR CREDIBLE,

On October 1, 2018, the American Psychiatric Association added ten new diagnoses to the DSM-5. On October 23, 2018, the diagnoses listed below will be added to Credible Domains for which Partners have purchased the DSM-5 on October 23, 2018. There will be no automatic changes to client records or to visits; the newly added diagnoses will appear in the diagnosis dropdown when adding or editing the client's diagnosis list. Please note: The ICD-10 equivalent to the DSM-5 diagnoses are updated automatically by FirstDataBank and are already available for selection.
