

## Dear Partner

You've told us that the timing of our live webinars isn't always convenient for you and your staff to attend, and we've listened. To make our basic and advanced training material more accessible and convenient for you, we've converted all of our instructor-led webinars to web-based video courses in the Credible Education LMS!

The newly available courses include all of our Advanced Billing webinars, Ad Hoc Reporting, eMAR, eRx, Physician's Orders, Forms, and more. Together with the brand new offerings we're adding through May, this will bring us to over 60 courses - all available to you at your convenience.

Beginning on Monday, May 16th, you will be able to enroll in and view any or all of these complimentary courses at a time that is convenient for you. When you have questions about the material shown, you are encouraged to send them to the Credible Training team. Twice a month we'll host a live Q&A webinar with subject matter experts to answer the most recent questions received. Of course, if you are currently in implementation you'll want to review your questions with your Implementation Team, first.

More information about this exciting new program is available [here](#), as well as in Credible Help, and - of course - in the Credible Education LMS.

Please continue to send us your thoughts on our training offerings. We always appreciate your feedback and value your continued Partnership.
