**Subject:** Credible Receives Meaningful Use Stage 3 Certification

# CREDIBLE

Behavioral Health Software

DEAR CREDIBLE,

Credible is pleased to announce that on December 28, 2017, **Credible Behavioral Health Version 11** software achieved **Office of the National Coordinator for Health Information Technology 2015 Edition Health IT Module Certification** via Drummond Group, LLC, an Authorized Certification Body (ACB). This certification designates that Credible offers functionality enabling eligible providers and hospitals to meet Meaningful Use requirements, qualifying them to receive payments under the ongoing EHR adoption program. A copy of the full press release can be found [here](#).

To earn this certification, Credible underwent rigorous testing to assure that it is in accordance with the standards and criteria issued by the Department of Health and Human Services (HHS), including the evaluation of 49 modules and 20 CQMs. A copy of the certification can be found [here](#), as well as in Credible Help.

Credible's Tech, Product, and Corporate teams devoted a cumulative 5,586 hours in support of the certification effort to provide our Partners with the opportunity to meet these requirements and take advantage of the funds available.

Full details on the updates provided will be available with our January release. Should you want more information about Credible's support of the Meaningful Use program, please contact your Agency's Partner Relationship Manager.

Thank you for your continued Partnership,

**Jaclyn O'Donnell**

*Executive Vice President*
