## Domain Wellness Check... Reserve Your Spot Today!

Dear Credible,

Domain Wellness is extremely important! When your Agency has a clean domain, your KPIs improve — productivity increases, data is timely, and new workflows are implemented more easily.

Credible developed the Domain Wellness Check to analyze key aspects of the Domain and whether best practices are being followed. We target various areas of the software to gather data on workflows and modules in use. From this data, Credible provides recommendations based on Credible Best Practices in clinical, billing, and administrative workflows, as well as highlight features that may improve operations or revenue for your Agency. Having a Domain Wellness Check completed gives access to a synopsis of:

- Pre-Billing Processes;
- Month End Closing Processes;
- Quarterly Review of Net vs. Gross Revenue;
- Form Setup and Configuration;
- eRx, Order, and Clinical Workflows; and
- Documentation Workflows

With data in hand, the Domain Wellness Check allows EHR Admin staff, together with Credible's Partner Support team, to review and determine areas of success or improvement within their Agency. Sign up now for a **COMPLIMENTARY Live Domain Review at Partner Conference.**

You will receive:

1. A complete Domain Wellness Check conducted just prior to Partner Conference;
2. A one-on-one in-person meeting with Credible experts to review your Domain Wellness Check enabling you to fully understand the health of your domain and the next steps for improvement;
3. A hard copy of the Domain Wellness Check;
4. An Executive Summary of the Domain Wellness Check, including additional information and recommendations gleaned from the Live Review. Please note: The Executive Summary is sent to you after the conclusion of the Partner Conference.
