PARTNER CONFERENCE

IT'S TIME
2018

Renaissance Baltimore Harborplace Hotel
MARCH 27-29, 2018

Dr. Albert Rizzo

*"Director, Medical Virtual Reality
at the Institute for Creative Technologies"*

Guest Speaker Announced!

Meet Dr. Albert "Skip" Rizzo, Ph.D., a clinical psychologist and Director of Medical Virtual Reality at the University of Southern California Institute for Creative Technologies.

Dr. Rizzo is also a Research Professor with the USC Department of Psychiatry at the the USC Davis School of Gerontology. Over the last 20 years, Dr. Rizzo has conducted research on the design, development, and evaluation of the Virtual Reality Systems targeting the areas of clinical assessment, treatment, and rehabilitation across the domains of psychological, cognitive, and motor functioning in both healthy and clinical populations. This work has focused on PTSD, TBI, Autism, ADHD, Alzheimer's disease, stroke, and other clinical conditions. In spite of the diversity of these clinical R&D areas, the common thread that drives all of his work with digital technologies involves the study of how interactive and immersive Virtual Reality simulations can be usefully applied to address human healthcare needs beyond what is possible with traditional 20th Century tools and methods.

Credible is proud to have Dr. Rizzo present two sessions at the 2018 Partner Conference! The main focus will be:

Clinical Virtual Reality: A Brief Review of the Future!

This presentation will provide an overview of the many forms of Virtual Reality that have been applied across a diverse range of clinical conditions and research questions. This will include a brief review of the use of VR for Exposure Therapy for anxiety disorders and with PTSD in military personnel, followed by a summary of research and clinical applications of VR for addiction, paranoia, depression, autism, and pain management.

Populating Virtual Reality Worlds with Virtual Human Agents

This session will provide a brief rationale and overview of research that has shown the benefits derived from the use of virtual humans in healthcare applications. Recent work using intelligent virtual human agents in the role of virtual patients to train novice clinicians, as job interview/social skill trainers for persons with autism, and as online healthcare support agents will be described, along with a look into the future of this next major movement in Virtual Reality.

Start Building Your Completely Customizable Conference Agenda [NOW!](#)

If you have already registered, please follow the steps below to create your Partner Conference Agenda:

1. Visit the [Partner Conference website here](#).
2. Locate the **"Already Registered"** link at the top of the page.
3. **Click the link** and enter your email address and .
4. **Click the "Modify" button** at the top of the registration section.
5. Check to make sure the information you previously entered is still accurate.
6. **Click the "Registration" link** next to your name.
7. Select your sessions using the dropdown lists in the time slots and **click "Add to Agenda"**.
8. **Click "Next"** when you are done adding sessions to your agenda.
9. **Click "Next"** to review and submit your changes.
10. **Click "Finish"** to complete your changes.
11. Select **"Print Agenda"** and you are done!

If you have not yet registered, take advantage of this great opportunity to enhance your Credible software knowledge and maximize your technology investment. Group discounts are available, so don't leave any staff member behind! Gain a higher level of understanding on how Credible works, receive clear answers from the Credible team, obtain first-hand insight on new and planned software features, and leverage our complimentary Live Help and Domain Wellness Check!

[Register Today!](#)

We appreciate your continued Partnership, and look forward to seeing you in Baltimore!
