September Enhancements & Task Resolutions Post-Release Update

DEAR CREDIBLE,

On Thursday, September 20th, between 10:15 PM - 12:15 AM ET, Credible's Tech Team deployed our latest features, enhancements and updates. As indicated in our recent update, the release was planned to include the items listed below, and as indicated [here](#) with additional details.

The release went well, with no serious issues. In addition to the previously listed items, the Tech Team was able to add two additional enhancements to the release.

Late Addition Enhancements

Orders 2.0 Order Grid Enhancement

In preparation for the release of eLabs 2.0 in November, the Orders 2.0 grid was updated. Columns were renamed for consistency, action buttons were added, and the Filters section provides more feedback. Additionally, the Notes section was moved to share space with the Order ID and the History link.

Forms Library Enhancement

All forms in Partner Domains which are not marked as "Do Not Copy" will now be automatically copied to the LIBRARY Domain on a regular basis, without the need to open a ticket. These copied forms will have a two-letter state abbreviation prepended to the existing name.

September Release Webinar

Don't forget **today's free webinar** demonstrating and reviewing the enhancements and updates included in this release. The webinar runs from **2:00-3:00pm EDT** — [click here to register](#) and reserve your seat!

Thank you for your continued Partnership,

Jaclyn O'Donnell

Executive Vice President
