#### New Features available December 1, 2007

The start of December brings new features and functionality from Credible.

Over 10 new reports have been created to easily track performance and manage billing. New features, such as Physician's Orders, enable you to capture and manage critical information. Take advantage of these new features and work efficiently through the holiday season.

**December Software Spotlight:** Visit/Schedule Updates, Physician's Orders, Authorization Trigger, Sign & Submit All Visits, New Reports

#### Improved Visit/Schedule Notification and Updates

**Cancelled Visit:** With the new Hide/Show Cancellations button on the Schedule, you are now able to hide Cancelled Appointments from your Schedule View and quickly change that back if you wish to display the Cancelled appointments. Cancelled appointments are indicated with a red X on the Daily and Weekly views and by a strikethrough on the Monthly view. There is also a new Status to indicate that a visit is cancelled more than 24 hours in advance.

Mays, D	Jones, A	Lucas, R 09:45 AM-10:45 AM
Doe, M 09:45 AM-11:00 AM	Healy, F X	

**Scheduled Visit Status:** Visits in progress are now highlighted in Orange. Visits for which a Client has arrived are still highlighted in Green, until the Visit is started.

**Summary Client Visit View:** You now have the option to view only summary and non-billing information on the Visit View page for Visit Records.

**Updated Work Hours:** Work hours can now be in 15 minute increments.

**Visit Attachment:** New paperclip icon on the Visit List indicates visit attachments.

### New Reports

**Case Load Report by Severity:** Lists each employee's clients and the severity level for the client, if one exists; the severity level is a new field on the client face sheet that your administrator needs to add.

your administrator needs to add.

**Case Load Utilization Report:** Displays case load data for each employee, by team and profile; the actual number of assigned clients is displayed next to the maximum caseload set for that employee, and the ratio is calculated; administrator must add the max caseload field to the employee face sheet in order for you to use this report.

**Program Pre-closing report:** Lists which clients should be closed in any given program; If the client is active in a program and hasn't been seen in a specified amount of time, the client will appear on the pre-closing report for the program; each program can be set up with a specific number of days inactive before closing.

**Program Closing Report:** Shows which clients have been removed from specific programs within a given time period; a reason for and note about the assignment is displayed.

**Quarterly Served Clients Report:** Total clients seen in each program per quarter.

**Total Number Clients Served Report:** Shows dates clients set to active/inactive in a given timeframe.

**Monthly Unit Totals Report:** Similar to the Monthly Visit Totals Report but uses original unit totals instead of visit totals.

**Units Per Day Analysis Report:** Same as Visits per Day Analysis but uses original unit totals instead of visit totals.

**Provider Summary by Team Report:** Summary report for billable units with filter for Program, team, and date range. Initial view shows summary of Team, total original units and amount. Report columns include Provider Name, Original Units, Billable Units and dollar amount.

## Report Updates

**Scheduled Visit Status Report:** Two new totals have been added to this report: Resched/Cncl>24hr and Other, to more effectively divide and display totals; takes into consideration the new appointment scheduling status of Cancel>24 hrs.

**Employee Filter added on Payroll Report:** New filter enables you to select an employee, which will display only that employee's information.

## Client Enhancements

**Print All Client Medications:** You can now print all of a client's medications including current and discontinued meds. Simply click the "Show All" button to view and print all medications.

**Primary Employee to Client Advanced Search:** Filter by Primary Employee on Client Advanced Search.

**Age Field in Data Dictionary:** New locked data field shows client's age.

## Billing Upgrades

Axis I Primary Diagnosis can now be defined per Program for a Client. Diagnosis by Program can be added, edited, and deleted for a Client. Axis I Primary Diagnosis per Program also displays on 837 and CMS-1500. Flex rate visits with summing will only sum dollar amounts, not units. Non-billable settings has also been updated.
